Manufacturer's Warranty: To stop infiltration and further deterioration – Five Years Labor, Twenty Years Materials.

It is agreed that the City of Laurel in all instances and at its expense, including but not limited to installation, repair, or warranty service, will provide CIP with the following: adequate access to structure(s), a source of water supply, traffic control, assistance as needed to coordinate and control sewage flow, a location for garbage disposal (e.g., access to dumpster); hydrovac assistance.

CIP will provide the normal preparatory work and equipment necessary to install the liner system which includes pressure cleaning @ 3500 p.s.i., and step removal. We expect that our process will eliminate further deterioration and greatly increase the life of the structure(s). Independent lab tests predict a 50 – 100 year life span for our liner in a sanitary sewer environment.

Thank you for the opportunity to assist you and the City in solving these infrastructure problems. We look forward to working with you on this project and others in the future.

Best regards,

Jim Swain
