

RESOLUTION NO. R16-45

**A RESOLUTION ACCEPTING THE BID FROM WILSON BROS. CONSTRUCTION INC.
AND AUTHORIZING THE MAYOR TO SIGN ALL RELATED DOCUMENTS FOR THE
WATER TREATMENT PLANT INTAKE PROJECT.**

WHEREAS, the City sought bids from qualified firms to complete the project by publicly advertising the project pursuant to Montana law; and

WHEREAS, with the assistance of Great West Engineering, Inc., City Staff received five bids for the project and recommends the selection of Wilson Bros. Construction to complete the project as advertised at the cost of \$8,560,901 as provided in its bid (Base Bid and Additive Alternate No. 1); and

WHEREAS, the City of Laurel has complied with its procurement policy and both applicable Federal and Montana Law by utilizing a competitive bid process to ensure the project cost and firm selected are in the best interest of the City in both quality and price; and

WHEREAS, the City of Laurel currently possesses adequate funds to complete the project and it is in the City's best interest to proceed with this project.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Laurel, Montana, the City Council accepts the bid submitted by Wilson Bros. Construction, and the Mayor is authorized to execute all documents related thereto, for the award of the contract and completion of the Water Treatment Plant Intake Project at the bid price of \$8,560,901.

Introduced at a regular meeting of the City Council on June 21, 2016, by Council Member
McGee.

PASSED and APPROVED by the City Council of the City of Laurel this 21st day of June, 2016.

APPROVED by the Mayor this 21st day of June, 2016.

CITY OF LAUREL

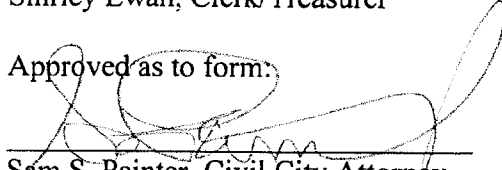

Mark A. Mace, Mayor

ATTEST:

Shirley Ewan, Clerk/Treasurer

**RE: Award Recommendation for Water Treatment Plant Intake
Great West Engineering Project No. 2-07128-T026
FEMA Project No. 1996-DR-MT-PW 01679
SRF Project No. E.Q. 16-1684**

Dear Kurt:

The bid opening for the referenced project was held on Wednesday, June 8, 2016, and five bids were received. Wilson Bros. Construction, Inc. of Cowley, WY is the lowest responsive and responsible bidder with a total bid of \$8,560,901 (Base Bid + Additive Alternate No. 1). I have enclosed a copy of the certified bid tabulations for your reference.

We have conferred with both SRF and FEMA to determine whether or not to apply the Montana Reciprocal Preference Law (MCA 18-1-102). Should this law apply, COP Construction, LLC of Billings, MT would be considered the lowest responsive and responsible bidder since their bid was within five percent of Wilson Bros. Construction's bid. However, in accordance with federal law and FEMA's regulations, this law cannot be applied, and therefore Wilson Bros. is considered the lowest responsive and responsible bidder. FEMA also stated in their legal opinion that applying the in-state preference law would disqualify the City from FEMA funding for the project. Please refer to the enclosed correspondence from FEMA's legal counsel that explains the specific sections of federal law and FEMA regulations that prohibit in-state preference.

Wilson Bros. has successfully completed at least two projects for the City, as well as other projects that Great West has been involved with. We have reviewed their past project experience, resumes of key personnel on their team and proposed subcontractors and suppliers, and it is our opinion that they are qualified to complete the work on the project.

F:\2-07128-Laurel On-Call\TO 26 - New WTP Intake Study\Project\Project Manual - Bidding File\Award Recommendation\LTR-K Markegard-Award Rec-2016-06-13.docx

For these stated reasons, it is our opinion that awarding the project to Wilson Bros. Construction is in the City's best interest. We formally recommend the award of the Base Bid + Additive Alternate No. 1 to Wilson Bros. Construction, Inc.

As always, feel free to contact me with any question and/or concerns.

Sincerely,

Great West Engineering, Inc.

Jeremiah Theys, PE
Project Manager

Subject: RE: Laurel WTP Intake, Bids Received

All,

The next 3 paragraphs come from Roger Jones (FEMA Region VIII PA Policy Specialist) after his discussion with the Region VIII legal counsel department.

It appears that the statutory provision is inapplicable on its own terms. It states that the "preferences in this section apply ... to contracts involving funds obtained from the federal government *unless expressly prohibited by the laws of the United States or regulations adopted pursuant to federal laws.*" MCA 18-1-102(c) (emphasis added). The regulations of Part 13 were adopted pursuant to the Stafford Act, and they expressly prohibit "the use of statutorily or administratively imposed in-State or local geographical preferences in the evaluation of bids or proposals." 44 C.F.R. 13.36(c)(2). The State should therefore ignore its preference for in-state bidders based on the exception that contemplated federal prohibitions.

The outcome is the same regardless of the exception, however, because FEMA regulations take precedence. In other words, even if there were *no* exception written into the statute, the preference would trigger a Part 13 violation and jeopardize FEMA assistance.

The bottom line, is that they should not be recognizing any preferences regardless of State law. FEMA will consider such a recognition as contrary to Federal procurement statues which could disqualify any future Federal funding for this project.

Please contact me if you have any questions. Thank you.

Subject: Laurel WTP Intake, Bids Received

Dave, Gary and Mark,

I am sending this email to you as the funding agencies for the project (i.e. FEMA and SRF). We received bids for the Laurel WTP Intake project today. The two low bidders were well below the engineer's estimate for the base bid (\$9.5M) and came in at approximately \$8.3M and \$8.6M, respectively; see the attached bid tabs. The low bidder was Wilson Bros. Construction out of Cowley, WY, and the second low bidder was COP Construction out of Billings, MT.

COP sent the attached letter questioning whether the bid should be awarded to Wilson Bros. for two reasons: 1) qualifications and 2) the state law (MCA 18-1-102) titled State Contracts to lowest bidder – reciprocity. We are still evaluating the qualifications of Wilson Bros., but have worked with them on several previous projects and have been satisfied with their work. My question is relating to the 2nd reason given by COP. Do FEMA and SRF, as Federal funding sources, allow this state law to be applied?

Dave, I read the following in subsection 13.36.c.2 of FEMA's PA Guide:

Grantees and subgrantees will conduct procurements in a manner that prohibits the use of statutorily or administratively imposed in-State or local geographical preferences in the evaluation of bids or proposals, except in those cases where applicable Federal statutes expressly mandate or encourage geographic preference. Nothing in this section preempts State licensing laws. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criteria provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

However, subsection 13.36.b.1 also states:

Grantees and subgrantees will use their own procurement procedures which reflect applicable State and local laws and regulations...

Sam, we would also appreciate your input as the City's legal counsel.

Please provide a quick response as we will be recommending award to the City Council at their workshop next Tuesday (6/14). Feel free to contact me with any questions you may have.

Sincerely,

Jonathan Weaver, PE, CFM | Project Manager

To: Jonathan Weaver
Subject: RE: Laurel WTP Intake, Section 00900

Jonathan,

We have had some lengthy discussions here today on the subject of when federal requirements override state laws. These discussions have centered on Davis-Bacon wages, 50 percent Montana work force, and contractor preference requirements. Although we are still checking with EPA Region VIII to confirm this, it seems we have reached a consensus that when direct federal grants are involved, such as FEMA and USDA/RD, then federal requirements such as the one in Section 00900.1.3.2 prevail. If the funding is passed through a state agency, as in this case, the Montana SRF program, then the funding is not a direct grant and the state's contractor preference law applies. However, since Davis-Bacon wage rates are expressly required by federal law for the state SRF programs, we still require they be paid even if SRF funding is the sole contributor to the project.

If I receive any more information I will pass it along to you. Feel free to call me if you want to discuss this further.

Gary,

I just realized that this section only applies to USDA/RD funded projects. Sorry for the confusion.

Subject: Laurel WTP Intake, Section 00900

Gary,

Section 00900.1.3.2 was pointed out to me. I should have noticed this earlier. It seems that this provision would prohibit the Reciprocal Contractor Preference law from being applied. Please let me know how you interpret this.

Thank you,
Jonathan

KEY PERSONNEL

Kim Wilson will be the General Superintendent on the Laurel WTP Intake. C. Wes Wilson will also be onsite as part of the project team to assist in the mainline pipe construction. Roger Ross will be the onsite superintendent in connection with Intake Structure. John Wilson will be onsite periodically to assist in the implementation of the cofferdam and dewatering system.

Kim Wilson

(307)548-6559

P.O. Box 636, Cowley, WY 82420

Professional Experience

C.A. Wilson Construction, Cowley, WY
1979 - 1987

Owner

Achievements:

- Pipe Installation
- Heavy Highway Construction
- Mining
- Reclamation

Responsibilities:

- Responsible for all crews and keeping projects on schedule

Self-Employed
1987 - 1990

Achievements:

- Completed projects for NFS, Airport work and local work

Responsibilities:

- All aspects of projects completed

C.J. Abbott
1991

Project superintendent

Achievements:

- Completed total restoration of Worthen Meadows reservoir including earthwork , concrete structures, culvert installation and riprap

Responsibilities:

- Oversee all aspects of project to completion

E. H. Oftedal, Miles City, MT
1992 - 1999

Superintendent/Foreman

Achievements:

Installation of large culvert, use of lasers for grade, excavation and embankment including rock excavation

Responsibilities:

Responsible for completion of projects from \$5,000.00 to \$10,000,000.00

Wilson Bros. Construction, Inc., Cowley, WY
2003 - Present

Owner

Achievements:

Sewer and waterline installation, dewatering, retaining wall construction, road construction, urban reconstruction, bank armoring, cofferdam installation.

Responsibilities:

Oversee all aspects of project to completion

Education

Ricks College, Rexburg, Idaho
2 yrs
Peace Corp, 2 years, Belize, Central America
Proficient in the Spanish language

Graduate – Kelly Walsh High School 1974

Casper College Trade School (1974 – 1977)

WC Kind Co. – Laborer (1974 – 1976)

Worked at Texaco, Standard, and Sinclair refineries in Casper.
Turn arounds and various tank projects.

Iron Workers Local 454 (1976 – 1984)

Worked at power houses around the state of Wyoming and Montana and high rises in Chicago and California. Worked with cranes ranging from 12 ton to 300 tons.

Salveson Construction (1984 – 1990)

Superintendent for Dirt, Abandoned Mines, and Municipality work.

Energy Transportation (1990 – 1991)

Truck Driver

Advance Tank (1991 – 1993)

Tank welding sites across the western United States.

Excel Construction/Rock Solid Inc. – Superintendent (1993 – 1998)

Superintendent on numerous water and sewer projects around state of Wyoming.
Superintendent on paving and crushing operations.

COP Construction – Superintendent (1998 – 2007)

Tongue River Dam Project
Bridges and Dam rehab projects
Refinery work
Concrete and dirt work
Bureau of Dam projects in Kalispell, MT.

D&R Construction – Owner (2007 – 2011)

Water line subdivision work
Methane field roustabout work
Reservoir work
Water line repairs
Water Outfall installation
Concrete work

COP Construction – Superintendent (2011 – 2014)
Bridge Work
Water & Sewer Projects
Concrete Work

Wilson Bros. Construction – Superintendent (2/14 – Present)

EDUCATION

Casper College Trade School
1976 – 1983

Courses Included:
- Iron Working
- Welding

Dear Mr. Wilson:

CONTRACTORS PREQUALIFICATION

After review of your prequalification form, your WYDOT ability rating (AR) will be: **16**

The ability rating is multiplied by your net worth. If you have an audited financial statement, WYDOT will use the full amount of your net worth. If you have a reviewed or complied financial statement WYDOT used up to a maximum of \$500,000.00 of your net worth. Your cooperation and quality performance on Wyoming Department of Transportation (WYDOT) construction projects will help insure that your firm stays in Good Standing with us.

Your company has been Prequalified for the following:

Maximum Prequalification Rating: \$ **\$38,300,000.00**

Work Classification: **Grading, Pipe, Truck Haul, Gravel Surfacing, Concrete Structures (Box Culverts), Intermediate Bridge Work (2), Fence, Landscaping, Underground Utilities, Keystone Walls**

NAICS Code(s): **238910, 238120, 237310, 484200, 238990 & 237110**

Contractor ID # **02415**

Date of Financial Statement: **December 31, 2015**

Expiration Date: **March 31, 2017**

Nothing contained herein shall be construed to deprive the Transportation Commission of Wyoming of the right to reject any bid, or refuse to award a contract to the low bidder where circumstances or developments have, in the opinion of the Commission, changed the qualifications or responsibility of the bidder.

For information concerning the WYDOT bidding system and for other pertinent information, please visit our web site at: **<http://dot.state.wy.us//>**

If you have questions or comments about your Prequalification Rating or your Contractor Performance Evaluation Rating Forms for your current WYDOT projects, please contact Andy Long, P.E., State Construction Engineer at (307)777-4425 or myself at (307)777-4056.

Your attention is called to the necessity of placing your Bidder ID Number on the bid proposal exactly as it appears above on this prequalification letter.

If you are planning on bidding on WYDOT projects, do not forget that you need to send the E-103 (Current Work Affidavit) each month. The E-103 can be found on our web page or on the second to last page of the PQ-2.

Sincerely,

James A. Messer
Prequalification Officer

NOTICE OF AWARD

Date of Issuance: June 21, 2016

Owner: City of Laurel, Montana Owner's Contract No.: FEMA: 1996-DR-MT-PW 01679
SRF: EQ 16-1684
Engineer: Great West Engineering, Inc. Engineer's Project No.: 2-07128-TO 26
Project: New Water Treatment Plant Intake Contract Name: N/A
Bidder: Wilson Brothers Construction, Inc.
Bidder's Address: P.O Box 636, Cowley, WY 82420

TO BIDDER:

You are notified that Owner has accepted your Bid dated June 8, 2016 for the above Contract, and that you are the Successful Bidder and are awarded a Contract for the Base Bid + Additive Alternate No. 1 for the New Water Treatment Plant Intake project.

The Contract Price of the awarded Contract is: Eight Million Five Hundred Sixty Thousand Nine Hundred One Dollars and No Cents (\$8,560,901) based upon the Base Bid + Additive Alternate No. 1.

Seven (7) unexecuted counterparts of the Agreement accompany this Notice of Award, and one copy of the Contract Documents accompanies this Notice of Award.

Three (3) sets of the Project Manuals including Drawings will be delivered separately from the other Contract Documents.

You must comply with the following conditions precedent within 15 days of the date of this Notice of Award:

1. Deliver to Owner seven (7) counterparts of the Agreement, fully executed by Bidder, and return the copy of the Contract Documents.
2. Deliver with the executed Agreement(s) the Contract security [e.g., performance and payment bonds] and insurance documentation as specified in the Instructions to Bidders and General Conditions, Articles 2 and 6.

Failure to comply with these conditions within the time specified will entitle Owner to consider you in default, annul this Notice of Award, and declare your Bid security forfeited.

Within ten days after you comply with the above conditions, Owner will return to you two fully executed copies of the Contract Documents, together with any additional copies of the Contract Documents as indicated in Paragraph 2.02 of the General Conditions.

Owner: City of Laurel, Montana

SUSPEND WORK ORDER

Dated: December 19, 2016

TO: Wilson Bros. Construction, Inc.

ADDRESS: P.O. Box 636

Cowley, WY 82420

PROJECT: City of Laurel, Water Treatment Plant Intake

Under the terms of your Contract, dated July 7, 2016, on the referenced project, you are hereby directed to suspend work on the project for the following reason(s):

- The Contractor has requested a Winter Shutdown/Suspend Work Order due to abnormally cold temperatures and excessive moisture from December 20, 2016 to January 8, 2017 (20 calendar days). This request was made in accordance with Special Provision SP-19.

As the Suspend Work Order is Contractor requested, no contract days will be added, but the days the work is suspended will not be counted against the Contract Times. Therefore, the previous date of substantial completion, March 22, 2017, will be extended to April 11, 2017. The April 1, 2017 milestone for the substantial completion of the project is also hereby extended to April 11, 2017. This milestone extension does not apply to work associated with the intake, transmission mains in the river, air and hot water lines, compressed air system and boiler system.

This notice is effective at the close of business on December 19, 2016, at which time there remains 93 calendar days in which to reach Substantial Completion. A *Resume Work Order* will be issued when conditions are such that work can be performed in accordance with the specifications.

Please acknowledge your receipt of this Order in the space provided below and return a copy to the Owner.
